

**If you're thrifty, even with paper towels, a heat pump should make the cut.**

**Let's talk. Call 888-835-4672.**

## Saving money in unexpected ways is a passion we share at GMP.

And now you can do it while cooling and heating your home with a hyper-efficient heat pump. With twice the efficiency of traditional oil and propane systems, you can expect to save energy and money. Plus, with our heat pump program, you'll get 15 years of risk free service and maintenance. If you're naturally #VTFrugal like a lot of Vermonters, a heat pump is a good fit.
