Re: Case No. 23-0334-TF – Tariff filing of Green Mountain Power to revise the Power Supply and Retail Revenue Adjustor.

Dear Ms. Anderson:

Green Mountain Power (GMP) is filing two minor corrections in the above captioned tariff filing. First, the cover letter accompanying the tariff filing has been updated to reflect the final amounts for the remaining ongoing collection and the total net collection to begin April 1, 2023. These amounts were incorrect in the original cover letter, but correctly presented in the supporting Line Item Calculation as well as GMP's Quarterly Adjustor Report for first quarter of Fiscal Year 2023. The 0.60% line item calculation noted in the original letter was also correct and is unchanged.

Second, GMP is filing an updated clean and redline version of the Record of Filing tariff package, which provides revised versions of Sheets 29 and 30 to correct two typographical errors that do not affect the underlying tariff calculations. The revised Sheet 29 corrects a typo in the redline deletion, and Sheet 30 inadvertently did not include the ongoing Major Storm Restoration Fund adjustment that was previously approved and effective on bills October 1, 2022.

Thank you, and if you have any questions, please feel free to contact me.

Sincerely,

Geoffrey H. Hand, Esq.
