

Q.DPS.GMP.2-3: In reference to A.DPS.GMP.1-2(1), please provide the same information for 1999 – 2014.

Objections 1, 8. This request is unduly burdensome, not proportional to the needs of the case and would require extensive additional document review, including combining data from different legacy systems prior to the GMP and CVPS merger which is not easily accessible. GMP has provided the data originally requested in Q.DPS.GMP.1-2(1).

A.DPS.GMP.2-3:

See objection.
