

POWER SUPPLY CUSTOMER NOTICE

Effective October 1, 2023, the Current Energy/Major Storm Adjustment will change to 2.43%, from the current 0.89% you see now. This is due to \$10.060M in additional power costs and \$24.518M in additional storm costs between January 1, 2023, and March 1, 2023. The change follows a plan for incorporating changes in energy supply costs and storm restoration costs approved by the Public Utility Commission in Case No. 21-3707-PET and amended in Case No. 23-0141-PET. This will be on your energy statement for 36 months and may be adjusted in the future based on power supply, sales, and major storm restoration.
